

Introduction

In-Country Value (ICV) is a key concept in supply chain management, which refers to the extent to which goods and services procured from a country contribute to the country's economic and social development. This course will cover key topics such as ICV guidelines in Oman, Qimam program, and other local content initiatives. Participants will learn how ICV can benefit Oman's economy and job creation, and how they can contribute to ICV as suppliers or contractors.

This one-day training course is designed to provide participants with a fundamental understanding of ICV and its application in Oman, with a specific focus on the Qimam program and other local content initiatives.

Course Objectives

These objectives are focused and are designed to give participants an understanding of the basics of ICV and Qimam program in Oman. The key objectives of this online training course as follows:

- To provide participants with a basic understanding of ICV and its application in Oman, with a specific focus on the Qimam program and other local content initiatives.
- To familiarize participants with ICV guidelines in Oman, and how they relate to the contract management.
- To learn how ICV Plan is evaluated in tender evaluation process.
